## THE BOER WAR WILL CONTINUE.

So the Envoys and Refugees at the Hague Declare.

WILL LAST FOUR YEARS YET

Illusions Regarding Action of American Authorities in Case of Shipment of Supplies Are Dispelled.

New York, April 8.-There is little faith among the Boer sympathizers here that peace is imminent in South Africa, says a Tribune correspondent from The Hague. Hearts are hardened in consequence of the conference held here, and at Utrecht, and the Boer envoys and refugees are asserting in a louder key than ever that the war will last four years longer, and that there can be no peace without independence. The credulity of the burghers in South Africa is matched by the assumption of their agents here that their deliverance is coming from England's foreign complications when there is

not a cloud in the sky.

When the three Boer commissioner were sent to America it was assumed that a good case would be made out investigation of the military of the war, and the shipment f supplies of horses and mules from the United States would be prohibited. the cented states would be pronibled, the delegates returned, but a new fic-tion has been suppled. The Boer advocates are asserting that England is fatally embarrassed by her alliance with Japan and certainly will be drawn into a wer of tremendous magnitude in the far east. The Boer sympathinto a war of tremendous magnitude in the far east. The Boer sympath-izers are correctly justifying an in-definite continuance of the guerrilla warfare, and forecasting the ultimate triumph of the cause of independence, when British troops cannot be spared from the larger theater of European

operations.

The Dutch were once the most astute neutrals in the world. They are now when the most aggressive partisans. When the radical government was in power the ministers confessed that the future of Holland might be imperiled by the bitter hostility displayed against Eng-land. Some of them were frightened by the fact that Utrecht had become a base of operations against England, and that Mr. Kruger had brought to Holland what gold remained in the Transvaal treasury, and was using it for the purpose of maintaining hostile operations and promoting foreign in-tervention. They were charged with a lack of sympathy for the Boers when they asserted that the presence of Mr. Kruger kept Holland in a state of ex-citement, and that it would be a good thing if he were to leave the country Premier Kuyper's conservative govern ment has been committed from the out-set to a more active support of the Boer cause, but its bolt was shot when the prime minister vaguely suggested the expediency of granting the Boer agents a safe conduct to South Africa.

No Tax on Bucket Shops.

Washington, April 7.—The conferences on the war revenue repeal bill today reached an agreement, the senate recedfrom its amendment which retained the tax on "bucket shops." It was stated that taken in consideration with the repealed sections of the law was doubtful whether the senate provision would stand and also that it would permit members of stock ex-changes engaging in the business which the amendment would prevent among so-called bucket shop dealers. Great Northern Passenger Wrecked

Spokane, Wash., April 7.—Great Northern passenger train No. 4, eastbound, was wrecked this morning at Winchester, 133 miles west of this city. Railway officials here refuse to make any statement except to assert that none was killed. The best advices ob-tainable are that a high wind this morning blew a freight car out on the main track. The passenger train struck It full speed, derailing the engine and seven cars. The fireman is reported badly injured, and it is believed many passengers were hurt. A wrecking train carrying doctors left here about

Another Suit to Prevent Mergor.

Washington, April 7.-Atty.-Gen. tratton, of the state of Washington, today brought to the attention of the United States supreme court the desire of that state to bring suit to prevent the merger of the Northern Pacific and the Great Northern railroads by mov-ing for leave to file a bill of complaint on behalf of the state versus the Northem Pacific and the Great Northern Railroad companies and the Northern Securities company. In making the motion Mr. Stratton said counsel for the

KIDNEY AND BLADDER TROUBLES PROMPTLY CURED.

A Sample Bottle Sent FREE By Mail.

Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in promptly curing kidney, bladder and uric acid troubles, rheumatism and pain in the back. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is not recommended for everything, but if you have kidney, liver, bladder or uric acid trouble you will find it just the remedy you need. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You fifty-cent and one-dollar sizes. Ex-Atty.-Gen. Griggs, who was present as the representative of the rail-road companies, acquiesced in what Mr. Stratton said as to the desirability of an early hearing ,but the court delined to announce an immediate de cision on that point. The chief justice said, however, that an early re-sponse would be given.

CITY ELECTIONS

IN MICHIGAN

Detroit, April 7.—The eneral interest in city and township elections which are being held in Michigan today is a Grand Rapids, where Mayor Geo. R. Perry, Democrat, is seeking election to a third term. Arthur R. Rood, who was nominated for the mayorality by the Republicans, died last Saturday from typhoid fever, with which he was stricken on the day of his nomination. His illness and death are said to have considerably increased the chance of Mayor Perry's re-election. A strong fight has been made against Perry because of the water supply scandal, for complicity in which former City Attorcompletely in which to the city action new Salisbury is serving a term in prson. Millard Palmer, who was chosen to take Mr. Rood's place at the head of the ticket, is compating Perry's reelection. The issues in the various cities and townships are purely local. The question of "wet" or "dry" is the dividing line in several places and elecric railway franchises are also an issue in several different cities.

The spring election in Detroit was abolished by the last legislature.

Banquet to Secy. Shaw.

New York, April 8 .- Secy. of the Treasury Leslie M. Shaw and President Wm. F. King of Cornell college, Mount Vernon, Iowa, were the guests of honor at a banquet tendered them here by the resident members of the David B. Henderson, speaker of the house, and Senator Allison, who were unable to leave Washington, sent let-

### PRESIDENTIAL INAUCURATIONS

Agitation in Favor of Changing the Present Date.

MARCH IS TOO INCLEMENT.

National Committee Resolves for the Last Thursday in April and Advocates No Particular Measure.

Washington, April 8 .- The agitation in favor of changing the date of inauguration of the president from the 4th of March to the latter part of April, received an impetus at the meeting of the national committee having the proposition under consideration. The change has been advocated mainly owing to the inclemency of the weather of early March. Most of the governors of the states

and territories accepted service on the committee and the letters received from them generally showed a desire for a change in the inauguration date. It was agreed that the chairman should appoint an executive committee and such other committees as might be necessary. It was resolved as the sense of the committee that the date of the inauguration day should be changed from the 4th of March to the last Thursday of April, but that no particular bill or resolution should be advocated. Incidentally, the question of the extension of the term of Congress was considered, and it was agreed that this committee had noth-ing to do with the question of when Congress should adjourn. The proposition to fix the 30th day of April was considered, but received no support, because it was felt that it was better to name a day of the week, rather than a day of the month; a day that could come always in the middle of the week, so as to avoid Sunday. The committee was unanimously in favor of the last Thursday of April.

Newton's Resgination Not Accepted. New York, April 8.—Until every means to induce the Rev. Dr. R. Heber Newton to reconside his action in resigning the rectorship of All Souls church have been exhausted, his resignation will not be accepted. This decision has been reached at a special meeting of the vestry. Dr. Newton intends connect-ing himself with Leland Stanford university. A committee was appointed to confer with Dr. Newton.

Will Postpone English Bill.

Des Moines, Iowa, April 8 .- The senate ways and means committee by a vote of 7 to 2 has decided to recommend bill requiring the railroad companies to report their gross and net earnings and operating expenses separately on the namely, on shipments wholly within Iowa, on those wholly across the state from and to other states, on those orignating in Iowa and sent out, and those originating outside and brought in. Richest Negro in Country Dead.

New York, April 8 .- Gen. John Mc-Kee, the wealthiest colored man in Philadelphia if not in the country, is dead, says a Philadelphia special to the Herald. His estate is estimated at about \$1,500,000. At one time he owned more than one million acres of land. He conducted a restaurant in this city un til 1866, when he retired and engaged in real estate operations. He was 81 years

To Wash the Coal.

Chicago, April 8 .- Roused by the general anti-smoke agitation, Illinois coal operators have been working quietly for some months to secure washing ap-paratus that would materially cleanse the coal of much of its smoke making debris. There has been more or less of an effort in the last three years to bring about the same result, but the methods employed have been far from satisfactory.

Since the beginning of the present year, however, over \$700,000 has been spent by the various coal interests of southern Illinois, particularly in the Carterville district, in experimenting with various devices for this purpose and it now announced that machinery has been perfected by which the work of washing coal can be done thoroughly and economically. The new washing machinery is said to be a complete revolution from wethers. olution from methods that have been in use for some time.

CAMP AT PORT CHALMETTE. Col. Crowder is Sent Down to Make An Investigation.

Chicago, April 8 .- Col. E. H. Crowder of Chicago connected with the adjutant-general's department, and now assigned to the department of the lakes, according to the Tribune's New Orleans correspondent, is the officer sent to Port Chalmette, La., to inquire into conditions at the military camp reported to be under the management of the British government at that point. records pertaining to the suit brought by Gen. Pearson in a recent effort to prevent the sailing of two transports. The courts set aside the objections. It is found that nearly all the documents in the case were forwarded to Wash-ington as a part of Gov. Heard's report to the secretary of state. Today, it is held, will decide whether there will be a thorough and immediate inquiry.

It is estimated that there are now 1,000 horses and 400 mules penned up at Port Chalmette. At the wharves three transports are waiting to clear for Capetown the moment the animal cargoes are aboard. A "committee" of British army officers and veterinarians

AFFAIRS AT PORT CHALMETTE. Name of Officer to Make Investigation is Withheld.

Washington, April 8 .- At the suggesion of the attorney-general and secretary of state, the war department has decided to withhold from publication the name of the officer selected to in-Chalmette, La., where animals and supplies are being shipped to the British army in South Africa. It is felt that the officer's purpose might be thwarted by publicity at this stage. It had been rumored that Gen. CURED BY "5-DROPS"

MR. ADELBERT RACE. 235 Elm Street. Holyoke, Mass., writes under date of Nov. 4, 1901, as follows: "I request you to publish my testimonal for '5-DROPS,' and what it has done for me, so that poor suffering humanity may not suffer what I have. For six years I was troubled with backache, never free from pain one minute night or day. I paid a New York doctor \$120.00 for a year's treatment. I had Rheumatism from head to foot, and one limb from foot to body was numb all the time. I also had bladder trouble in its worst form. In round words, I was a 'used up man.'

On the 29th of September, 1897, I began the use of '5-DROPS,' and from that day until the present writing the backache has not returned. The numbness in my limb gradually left as did the bladder trouble. In about six months I was free from the troubles entirely, and they have not returned to this time."

PRED KING, Ithaca, N. Y., writes: "Your remedy, '5-DROPS' has done wonders for me. Today I can do as much work as any man of my age, and many younger can. I was almost confined to the house, and what little I did walk was with two canes. After taking '5-DROPS' for two months I could do my work. I had an attack of Sciatica, which lasted nearly two years at one time, and was drawn out of shape so that the doctor said I would be a cripple as long as I lived. But '5-DROPS' has done its work, and today I am ou my feet. I have kept it in my house ever since I ordered the first bottle, and I have told many of my friends of it. If anyone wants to know what '5-DROPS' done for me let them write me and I will tell them what it has done."
